

COKE IS LIGHTING UP ITS HEADQUARTERS FOR EVERYONE TO SEE TO CELEBRATE 125 YEAR BIRTHDAY

Every Thursday, Friday and Saturday night for the month of May, Coca-cola will be celebrating its 125 anniversary by lighting up its headquarters tower in Atlanta. This building illumination, the world's largest, features a combined total of more than 210,000 feet of surface area and 1 million lumens of light. Obscura Digital designed and is running the building illumination. The carbon emissions from this display will be offset by contributing to a carbon sequestration project in Georgia.
