

GROWING SMARTPHONE ECOSYSTEM MEANS NEW JOBS AND VENTURES

Smartphones have been evolving over the years. This has resulted in the creation of number of opportunities to not only investors for a new venture, but also to the job-seekers. There has been a surge in various mobile areas like mobile advertising, mobile media, programmers, enterprise software makers and refurbishers. Since the launch of original iPhone in 2007, there has been rapid adoption of the mobile market.
