
ANUPAM JAUHARI TO JOIN INFOGAIN

Infogain corporation, an IT services company headquartered in Silicon Valley, announced Thursday that it had tapped Anupam Jauhari to become Vice President and Global Head of Human Resources. The title is more than ceremonial, as Infogain maintains branches in the UK, India, and the United Arab Emirates in addition to multiple offices in the United States. Jauhari comes to Infogain via NIIT Technologies and Reliance Industries, two Indian firms where he served as head of Human Resources. Over the years," said Infogain's president of global delivery operations, Eddie Chandhok, "Infogain has established itself as one of the top companies to work for in India and beyond. We expect Anupam to expand that legacy through his solid leadership and vision in promoting and strengthening our organizational culture."
