LAWSON SOFTWARE DUBBED A "CHAMPION"

LAWSON™ Lawson Software, a Minnesota-based vendor of HR software, has been selected as a Champion in Info-Tech Research Group's most recent landscape report. The report, entitled "Select an HR Management System," gave three companies the title out of seven possible companies who produce and sell major pure-play and suite human resource systems. "Lawson provides a wide range of purchasing options as a leader in the healthcare space and other important industries, the company does an exceptional job of placing a strong emphasis on its verticals," the report says. Info-Tech's report assesses vendors by the strength of their product as well as the strategy implemented for their enterprise. Champions are those who are regarded in the industry as trendsetters.
