## LAWSON SOFTWARE PURCHASES ENWISEN FOR \$70 MILLION

Lawson Software has revealed its plans to purchase Enwisen, a vendor of human resources software, for \$70 million. Enwisen, based in Novato, California has an impressive array of customers, including Microsoft, Nissan and Comcast. The company is the vendor of AnswerSource, a software service suit that provides employees with a personalized human resources information and includes a case management application that permits customer service representatives to access that knowledge. AnswerSource also offers a software package that is designed to help companies with new hires as well as employees leaving the company.
