## LABOR AND COMMERCE DEPARTMENTS MAY BE COMBINED IN NEW BILL

There is new bill in that is looking to combine two departments, the Department of Labor and Commerce, eliminating the double work and cost that seems to be a huge issue in our government. The new bill should cut government spending by a huge amount, saving the tax payers money. Hopefully the new bill will create more accountability also. Existing policies will not be affected, but ones in the future will. A lot of advice will come from the government accountability organization as to what policies will need to be cut to help save tax payer money. President Obama is a huge backer of the program and several other members of Congress are backing it.
