
HAVING DIVERSITY IN THE WORKPLACE MAKES BUSINESSES MORE PROFITABLE

Backed up with statistics, this article shows how diversity in the workplace can be beneficial for employers. As they say, money talks. With increased revenues, employers now take a second look on why hiring employees from different nationalities could be considered an asset to their company. Ultimately, a diversified group could further improve products, increase customers, and get more profit. Read the full article here: [Workplace diversity leads to higher profits: Study](#)
