

INTERFACE TO CUT 290 JOBS

Interface reported deeper losses for 2008, and will cut another 290 employees. The Atlanta-based modular carpet company saw a net loss of \$41 million, compared with a net loss of \$10.8 million in 2007. Annual sales were flat at \$1.08 billion. Interface will slash its worldwide employee base by 290 employees. These cuts follow a 14% cut (530 jobs) to its workforce announced in late December 2008.
