## FOAM & STEEL TECHNOLOGY CREATING 105 NC JOBS

Foam & Steel Technology Associates will open a new manufacturing plant in Littleton, North Carolina, creating 105 jobs over the next three years. The company, a manufacturer of pre-engineered steel and foam panels, will invest \$2.5 million. The 105 new jobs will pay an average of \$28,700, not including benefits. Virginia-based Foam & Steel will get a \$300,000 grant from the One North Carolina Fund.
