
FARO TECHNOLOGIES TO CUT 14% OF WORKERS

Faro Technologies plans to cut 14% of its workforce, in addition to cuts announced in February. The company did not say how many employees would be affected. The firm employs over 850 people worldwide. February's cuts comprised 7% of the company's work force. Lake Mary, Florida's Faro Technologies makes computer-aided measuring equipment and software for creating digital 3-D models.
