
SAZERAC EXPANSION WOULD CREATE 140 KENTUCKY JOBS

New Orleans-based Sazerac North America may build a \$22 million expansion, creating 140 jobs in Kentucky. The state is offering Sazerac \$4.68 million in wage tax rebates. The plan would also upgrade distillation and bottling operations in Frankfort and Owensboro. Fifty-one new management positions in Louisville, in finance and customer service, would offer average pay of \$75,000 a year. Which, in Kentucky, is A LOT. The Buffalo Trace Distillery in Frankfort would gain 39 jobs. The Sazerac North America bottling facility in Owensboro would get 50 jobs.
