

SIEMENS TO ADD 226 JOBS IN NORTH CAROLINA

SIEMENS

Orlando, Florida's Siemens Energy will create 226 engineering jobs, and invest \$50 million in its Charlotte, North Carolina plant over the next five years. The company currently employs 740 workers in Charlotte. The average annual wage of the jobs will be \$49,000 in 2009, and increase to \$66,500 by 2013. Siemens AG is Europe's largest engineering conglomerate. Siemens' international headquarters are located in Berlin and Munich, Germany. The company is a conglomerate of three main business sectors: Industry, Energy and Health Care, with a total of 15 Divisions. Worldwide, Siemens and its subsidiaries employ 480,000 people in 190 countries, and reported global revenue of \$111 billion in 2008.
