

GLASSHOUSE TECHNOLOGIES TO ADD IT JOBS IN NORTH CAROLINA

Framingham, Massachusetts-based information technology firm GlassHouse Technologies will expand its operations center in Cary, North Carolina. The firm will create jobs by bringing back positions sent overseas. The Cary facility provides data storage, backup and security services, and currently employs 40. The firm has not given a specific number of jobs to be created in Cary, which has a population of 134,000.
