

M+W ZANDER HIRING 40 IN NEW YORK

GlobalFoundries will launch a major computer chip fabrication plant in Malta, New York. M+W Zander, the architecture and construction firm building the \$4.2 billion facility, is filling 40 high-tech design and construction management positions for the project. The University at Albany's College of Nanoscale Science & Engineering will host a job fair on June 10th, at the Albany NanoTech complex in Albany, New York. Open positions include electrical and mechanical designers, engineers and estimators; construction and design project managers; and accounting, purchasing, document control and administrative personnel. The positions pay from \$40,000 to more than \$100,000. Plano, Texas' M+W Zander US Operations is a full service architecture, engineering and construction management firm.
