
STUDY: CARD GAMES COULD CREATE 10,000 JOBS AT PENNSYLVANIA CASINOS

Legalizing table games like poker and blackjack would create 10,000 jobs at slots casinos in Pennsylvania, according to a study. According to New Jersey's Innovation Group, legalizing table games in Pennsylvania would create casino jobs as well as support jobs in the construction and service industries. The State House Gaming Oversight Committee will hold a meeting this week to review the study.
