
PRAXAIR GETS \$93,000 TO CREATE 3 JOBS

The State of Missouri is giving Danbury, Connecticut's Praxair \$92,913 in Enhanced Enterprise Zone tax credits to upgrade its Kansas City plant, creating three jobs. The plant supplies oxygen, nitrogen and argon to area companies. It currently employs 22 people. Praxair is the largest industrial gases company in the Americas, and one of the largest worldwide. The company supplies atmospheric, process and specialty gases, as well as high-performance coatings and related services to a wide diversity of customers around the world. Praxair has operations in over 30 countries and approximately 3,000 patents.
