
DIAMOND POWER TO CUT 67 IN OHIO

Diamond Power International will cut 67 employees by the end of this month, including 52 from its Lancaster, Ohio plant. The company employs 1,600 workers globally, at more than 80 facilities. Diamond Power International is a market leader in boiler cleaning and ash handling. For more than 100 years, DPII has provided technologies for power generation, pulp & paper and industrial boiler designs.
