## SAN DIEGO PADRES ELIMINATE 10-20 POSITIONS

The San Diego Padres baseball organization has eliminated between 10 and 20 office positions as part of a reorganization. New CEO Jeff Moorad would not give a more exact number, presumably because he does not know how to count that high. The team intends to hire for some low-pay positions soon. The San Diego Padres are a Major League Baseball team based in San Diego, California. They play in the National League Western Division. Founded in 1969, the Padres have won the National League Pennant twice, in 1984 and 1998, losing in the World Series both times.
