
WELLS FARGO ADDING 150 JOBS IN NORTH CAROLINA

**WELLS
FARGO**

Wells Fargo plans to add 150 jobs over the next two years at its hub in North Carolina. The North Carolina hub specializes in wealthier customers and the jobs will be primarily in wealth management and trusts. Some of the positions may be transferred from other locations so the total number of new jobs that will be created is still unknown. Wells Fargo merged last year with Wachovia, which led to some layoffs in North Carolina and the midwest.
