## DISH NETWORK CLOSING CALL CENTER, 600 JOBS WILL VANISH

Dish Network, the second largest satellite TV provider in the US, is planning to close a customer service call center in Pennsylvania next year. The company says it will hold a job fair for the 600 employees that will lose their jobs when the center closes. Starting in March of next year, customer calls will be routed to 12 other call centers. The company says customer service will not be affected because they are currently overstaffed.
