
OHIO LOSING 120 MORE MANUFACTURING JOBS

Commercial Vehicle Group is shutting a plant in Ohio that manufactures truck cabs, after it losing its contract with **Navistar**. Navistar has decided to manufacture the cabs at its own plant in Mexico as of April 2010. The Ohio plant has about 120 employees who will be out of a job once the plant stops operations. Navistar has said it intends to look for new ways to work with CVG in the future.
