## GM ADDING 1,000 NIGHT-SHIFT JOBS IN LANSING

General Motors Co. is adding a late-night shift to its plant in Lansing Delta Township in Michigan which will result in an additional 1,000 workers being brought on board. The third shift will be started in April. About 483 of the positions will be filled by workers being relocated from the company's plant in Spring Hill, Tenn., which ceased operations in November. GM is also adding a third shift at its plants in Kansas City, Kan. and Fort Wayne, Ind., which will restore about 2,400 jobs.
