
CODA PLANS ELECTRIC CAR BATTERY PLANT FOR COLUMBUS

Pending a pay out of US Department of Energy and state funds, [CODA Automotive](#) announced its plans to open a lithium ion battery plant in Columbus, Ohio. Per a [Mercury News post](#), the deal could bring over 1,000 jobs to the area. Although far from certain, the potential new plant would be a significant gain for the region. Headquartered in Santa Monica, California, CODA Automotive is a leader in the field of green transportation. With its network of global partners, CODA has developed and licensed a purpose-built, automotive grade battery pack that allows for a zero emission car with a 100 mile per charge range. CODA plans to release its first sedan in 2011.
