

120 JOBS IN NY AND PA FROM CARDWORKS

CardWorks Servicing, LLC has the need to fill 120 jobs that are primarily telephone and customer service support positions in New York and Pennsylvania. The abrupt spike comes from the company being recently selected as a provider of large business credit card portfolios. "We are pleased to be able to create a substantial number of good, family-sustaining jobs, especially at a time when unemployment has been so high," said Donald Berman, Chairman and CEO of CardWorks. "Because we operate 24x7x365, many of our work schedules are not limited to traditional Monday to Friday 9-5 hours. We have a good variety of full and part time schedules that can compliment school, family, or second job commitments," added Berman.
