
HEALTHCARE FACILITY IN KENTUCKY: 120 POSITIONS

Governor Steve Beshear was happy to welcome a new company to Louisville, one that is bringing new job opportunities. Signature Healthcare LLC is a senior living facility operator and has just cut the ribbon on their new National corporate headquarters in the Bluegrass Commerce Park in Jeffersontown, Kentucky. The \$6.5 million facility will initially have the need for about 96 positions, but plans to eventually employ 120 according to their press release. The average will be paying \$75,000 per year. As Governor Beshear put it Monday morning, "Job by job and company by company, nowhere is the energy as fervent as right here in Louisville and Jefferson County."
