## WINDKITS LLC. TO ADD 4,000 JOBS TO LEHIGH COUNTY, PENNSYLVANIA

Windkits LLC, a wind turbine components manufacturer based in New Jersey, will be adding more than 4,000 jobs to their new production facility in Upper Macungie Township, Pennsylvania. The company will host a job fair at Pennsylvania's CareerLink in Lehigh Valley, where they will be seeking out persons to fill new positions such as automated machine operators, band saw operators, machine maintenance workers, and production line workers. As was just reported, there is a massive influx of green jobs about to hit the United States. Windkits LLC is actually a partner ship between the Danish company, JSB Plast, and 3A Composites, a subsidiary of the Swiss company Schweiter Technologies.
