## 141 WHITE HOUSE STAFFERS MAKE SIX FIGURES, SAYS DATA

A recent data released by the White House shows most employees there make a hefty salary. This is when most of the Americans are finding it difficult to pay the bills. While Americans reel under the economic recession, White House employees seem to be doing very well. But one has to bear in mind that most of these staffers are talented individuals who have left top paying jobs to join the Obama administration. One cannot grudge them their high salaries, especially when they are under huge pressures most of the time. Read the full article here: [141 White House staffers make six figures](#)
