

RETIREMENT PLANNING TIPS

Few tips help to plan for a retirement. If one wants to be financially secure and is looking to pursue his other interests, then one should plan his retirement from the first day of the job. One should start contributing to the Thrift Savings Plan as it helps to meet long term financial goals of a person. One should keep own copies of all personnel records with him. And understanding the role of Social Security that plays in retirement is also important. Read the full article here:
