

AMBANI TO BET ON 4G BROADBAND IN INDIA, THOUGH RISKS ABOUND

Mukesh Ambani, an Indian tycoon investor, won a very exclusive license to implement 4G in India. Because of the poverty in India, Ambani faces a large risk with attracting consumers to buy this product. The key will be affordability and this is a challenge Ambani will have to overcome. Some investors believe he is over his head and may not want to take on such a large risk. For more details on the article [Click Here](#)
