
NEW YORK-BASED PRINTING PLANT TO LAYOFF 95 WORKERS

QUAD/GRAPHICS Quad/Graphics, a Wisconsin-based printing company with over 40 locations across the United States, has revealed plans to cut its payroll at a New York plant by nearly 20 percent at the start of 2011. Of the 500 positions at the Depew plant, 95 of those will be cut on January 3rd, 2011. A spokeswoman for the company, Claire Ho, has said that a portion of the work being done at the plant will be spread out to other facilities across the country in an effort to increase efficiency.
