

CHICAGO'S TOP TECH COMPANIES

Summary: Chicago is a diverse cultural and economic city that many tech companies have taken advantage of to build their customer and client bases.

There are a lot of things that Chicago, or the windy city, is known for. There are [more Fortune 500 companies in the area](#) than anywhere else in the U.S. Being a key spot for tech companies to establish headquarters is one of them. Here is a list of some of the top companies that are located in Chicago.

Echo Global Logistics

This company opened their doors ten years ago with one goal – to remove the complicated aspect of transportation management. Their aim is to simplify the process of transportation management through their special technology that offers portals to vendor, carrier and client management.

Acquity Group

This company balances science and art to make memorable experiences for consumers. They offer dynamic strategy, creative, marketing, and technology solutions to help companies expand. They help build new customer interaction models, design organization processes, structure enterprise architectures and roadmaps, and define business cases for investment.

CCC Information Services

This company has a business casual work environment with excellent health benefits and competitive pay. They are a leading provider of advanced software and workflow tools, and technologies for automotive collision repairs, property/casualty insurances, and parts suppliers. Their clients include over 350 insurance companies, hundreds of parts suppliers, and over 21,000 auto body shops. Their software quickens the repair process so people can get back into their damaged cars faster.

Google

Some of the perks this company offers are free gourmet food, nap pods, onsite doctors, massage rooms, and haircuts. Google is a multinational technology company that specializes in internet services and products such as advertising technologies, cloud computing, search, and software.

Innerworkings

This company handles print and print management. They built a transparent business model that allows them to leverage a global network of suppliers. Their model gives them the ability to guide data-driven decisions to lower costs, shorten time to market, and enhance efficiencies. With much success, they were able to expand the business to include service in retail displays, packaging, creative services, and branded merchandise.

Trustwave

This is a company that protects sensitive information. They help businesses protect data, reduce security risks, and fight cybercrime. Their cloud and managed security services, ethical hackers, researchers, integrated technologies, and a team of security experts have allowed them to transform how businesses manage information security.

Razorfish

This company is one of the largest interactive agencies. They offer services in web development, technology and innovation, media planning and buying, analytics, advertising, mobile, emerging media, social influence marketing, search, and creative.

kCura

This company builds web-based e-discovery applications that manage large volumes of electronic evidence for investigations or litigation. Their product, Relativity, minimizes risks and helps control costs that come with identifying, analyzing, and collecting electronic data. The company was recently recognized by Gartner's 2015 Magic Quadrant for e-Discovery Software as a leader.

Digitas

They are a technology and global marketing agency for businesses of the digital age. They help brands clasp the creative and technological changes that influence all aspects of how a business operates. They incorporate the use of blending, which is their unique way of working collaboratively.

Enova

This company's values are to put customers first, operate as an owner, be accountable for results, the best answer wins, and to have top talent and teamwork. Their services in United States include CashNet USA, NetCredit, and Headway Capital. They work hard to ensure that they comply with all lending laws and regulations that are applicable to them. They want to responsibly preserve credit everywhere.

Callpod

This company is a creator of consumer electronic merchandises and software that boost existing technology. Their brands offer simple and intuitive solutions that appeal and impact the mass market.

Blockshopper

This company works with real estate by providing local news and market data for current and soon-to-be homeowners, home sellers, and home buyers. They act as part newspaper and part hyper-local research tool for real estate.

Orderzone.com

They are a website for business-to-business products and services that allows companies to purchase from more than one supplier. The key suppliers are Fuji Electric, IKO Bearings, IdealShield, Graymills, and Airmaster Fan.

Adeptia

They are a software company that allows businesses to create connections with partners and customers in minutes. They want businesses to be able to self-serve by accessing necessary information at any time. They act as a social network for digital businesses to respond quickly to opportunities.

Cleversafe

This company has an object data storage system that they sell called the Dispersed Storage Network or dsNet. They have worked closely with leaders of all
