## ADVANCEDNETWORX, INC.: A NEW NETWORK INTEGRATION COMPANY OPENS IN MORRISVILLE, NC

AdvancedNetworX, Inc., a network integration services company, announces a new business headquartered in Morrisville, NC focused on the delivery of advanced technology solutions to clients across North Carolina and into Virginia and South Carolina.

The President of AdvancedNetworX, Deborah Shaw, and the Vice President of Professional Services, Robert Roesch, rounded up the talented team, which includes four senior level engineers (all Cisco Certified Internetworking Experts or CCIEs), two sales professionals, and two operations professionals. "Our goal is to provide our clients with the senior level consulting and assistance they expect from larger Cisco partners, but with the agility and complete devotion to their satisfaction that comes from working with a smaller partner," says Shaw.

"The talent of the engineering team that we have constructed is second to none for companies like ours in North Carolina," says Roesch. "We intend to focus our business on a targeted set of high-level technologies and to provide services in those areas."

The focus of AdvancedNetworX will be primarily around Advanced Technologies, including Routing and Switching, Unified Communications, Security, and Wireless. They will be working with clients across all verticals and sizes.

At AdvancedNetworX, your business IS our business. We work closely with you to determine the technology solution that best matches your needs. We then design, implement and support that solution, striving all the while to exceed your expectations.

Because the quality of your business depends on the quality of your network, security and voice services, count on AdvancedNetworX to be an extension of your team. We have the knowledge and experience to keep your company's network services at 100%.
