More about "The Networkmarketing Builder"...

A "Networkmarketing Builder" can help you manage your contact database and keep in touch with automatic, personal and consistent follow up, because was originally designed specifically for the Network Marketing Industry.

The biggest problem we see in the Network Marketing Industry is people just don't have enough TIME each day to build their business. So, they soon get frustrated and quit or move on to the next opportunity promising wealth and freedom, only to find out they have the same problem.

Not enough TIME to build their business!

There are a few keys to the beginning of a successful Network Marketing business.

\* First, above ALL else, you must get started right away. Procrastinating this step will nearly insure failure.

\* Second, realize people DO procrastinate and put decisions off. The first few times you contact a prospect the timing just might not be right. You simply MUST follow up and keep in touch consistently. This will insure when they're ready you get in touch with them. Don't miss the opportunity to recruit a player that decided to go with another company because he or she hasn't heard from you.

This is where the problem comes in. People don't have the time to follow up with prospects and their downline near enough to be REALLY successful. You must make it easy for a new member to get started and duplicate your system!

E-mail and the Web are the answers! It costs you about \$20 a month to send as much mail as you want; And \$300 a year to host an entire web site The cost of phone calls and the postal service can be hundreds of dollars a month. Now, I would never recommend to forget the phone, fax, voice mail or snail mail. These are all part of building any successful business online and off-line and simply must be used.

\* The third is a good consistent supply of pre-qualified leads for you and your downline.

This is a Networker's dream come true! Because you can do it all with less than 15 minutes a day!

\* Copy your sales and training follow ups into "The Networkmarketing Builder"

\* Import your prospects and downline members

\* Then "The Networkmarketing Builder" does the rest for you, following up and keeping in touch for as long and as often as you want.

INFORMING, SELLING, EDUCATING AND TRAINING AUTOMATICALLY

Imagine an automated system that delivers information to your potential customers and then follows up with them automatically over a preset number of days, weeks, and months. An automated system that nudges, inquires, follows up, reminds and answers questions for each and every contact in due course, over and over...

Having an automated system to send e-mail communication and follow up to your potential and existing customers will save you time and money. Maximize your marketing efforts, stay organized, and make more MONEY in less time.

Systematic follow up will insure all your prospects are walked step by step through your opportunity and your product line. They will receive the whole story a little bit at a time taking them by the hand right to the sign up. Keep telling them about the features and benefits you and your network marketing company can offer them until the time is right for them to join or you strike a chord.

What if you could AUTOMATICALLY...

\* Help train and motivate your downline members?

\* Follow up and keep in touch with your prospect ?

\* Contact your customer to remind them of their reorder cycles?

\* Get new recruits started off fast and started off right?

\* Import your coop leads and begin to further qualify immediately?

\* Make one file of your prospecting letters to send to your members so they can import it into "The Networkmarketing Builder" to begin building their business immediately?

Sounds great, but where will you get the sales letters to follow up with?

This is a fair question. But there are many resources to depend on. This is one reason you decided on network marketing in the first place right? The support of a company and your organization!

- \* Contact your upline (often the letters you need are ready)
- \* Find all your old sales letters and applicable outgoing mail

They can now keep in close contact with all their prospects and organization, automatically!

If you have an existing organization that's even better, you have a built in prospect list and reseller force. Since it will be in their best interest, and yours, this is a win-win situation! Not only can it follow up with hundreds, even thousands of your prospects in a few minutes per day, but you can also ...

- <1> Send a training series over 12 months or more keeping your downline informed and motivated
- <2> Advertise and mail a free "Networkmarketing training series." Of course your information covers the benefits of your products and opportunity all right in the same series.
- <3> Mail a "getting started fast" training series to all your new recruits.

Let's review how much time you're spending on your mail communication. Use minutes or hours in each blank.

- 1) Keeping customers posted on specials and new products per day \_\_\_\_\_
- 2) Following up with prospects requesting more information per day \_\_\_\_\_
- 3) Keeping track of your contacts and e-mail communication per day \_\_\_\_\_
