

PROBUILDERPLUS REVIEW – A VENTURE INTO WORLD OF MLM

I want to start with simple statement – I have always told myself that I will never fall for Multi Level Marketing or as it's called most often MLM. I have always believed that most MLM business opportunities are nothing more than glorified pyramid scheme brought online. So what changed my mind? How did I, a self taught Internet Infopreneur got sucked into it? Read on ... to learn how, why, get the skinny on the latest hottest MLM opportunity and see my real day-by-day experience.

So, lets start with why. I run a website dedicated to affiliate marketing and home based business. I investigate and share my experiences with anyone willing to read my articles and make recommendations on what I consider a solid opportunity. I make my money on Yahoo ads and on multiple affiliate sales I get, when people do follow my recommendations. In last two month I have gotten at least 10 emails from my visitors asking me about different MLM programs and my personal opinion. Since I have only had experienced myself only with SFI, a known affiliate MLM I could only answer based on that, which wasn't enough ... So here I was. I have picked the hottest MLM I could find currently running and one of the youngest with low membership fees – ProBuilderPlus. This review is dedicated to my readers and hopefully my experience will help you make your decision.

Now to the how part we move ... How do you make money using ProBuilderPlus business opportunity? It's really a quite simple forced matrix with 3 levels of payoff but quite a bit more intricate system of payments. Once you build a matrix of 9 people in your downline, doesn't matter how far, you guaranteed a weekly check of \$30. But it doesn't stop there. You also get \$10 for each paying member you personally refer and then \$3 for second level from that member and \$2 for 3rd level. All this in addition to payments based on maintaining your minimum matrix. As your matrix grows, so does your weekly income.

The system is quite simple but let's have a look at how effective it is and what does it takes to recruit new members...Actually this is the part that surprised me most and quite pleasant surprise it was. It was designed to be used by anyone, with no marketing experience and no prior knowledge and recruiting is a lot easier than I thought was possible. I have joined this system for free, while doing evaluation of multiple MLM programs about 7 or 10 days ago. As soon as I did I started receiving emails with interesting subjects:

"Here you go Alex, we put Kathy under you..."

"Here you go Alex, we put James under you..."

"Another One Alex - Joseph just joined YOUR Powerline..."

"Alex - AWESOME Mark just Upgraded to Member in YOUR DOWNLINE..."

And they just kept on pouring in. Before I knew it I had 587 pre-enrolled members, free members but all interested to learn how to make money, all with an open mindset and just waiting for a push to be converted. And believe you me, emails with subjects like I shown above was powerful push even for a skeptic like me, so I decided to join, reasoning that I can always cancel.

And now I move to the tools that system provides, and their quality. It comes pretty much with everything one might require:

1. An autoresponder follow-up system that makes you want to upgrade.
 2. A matrix structure and pay plan that almost guarantees you make money.
 3. Lead capture pages that get the job done.
 4. A traffic rotator that allows you to funnel traffic to your downline.
 5. Online training that highlights simple steps to success.
 6. A Contact Manager that allows to stay in touch with people you personally sponsor.
 7. A tool that allows you to send a voice message to thousands of people per MINUTE.
- Quality design shows in every tool and all of them quite compelling as far as MLM goes.

Day 1-3.

All we are left with is my personal experience. I have had accounts already with several traffic exchange programs that require members to click on your add and actually look at page. I have found them quite effective for building my mailing lists, so I figured I would just add my link from ProBuilderPlus to rotation and see what it brings. Completion of that part only took me a few minutes and once done I had a chance to have a closer look at all tools I described above and specifically training. Nice day of work, if I can say so myself ...

Day two went pretty much on autopilot, due to my preoccupation with regularly scheduled job and I only had an opportunity to check my stats on third day. To my surprise I had over 530 views of my signup page and one paying member! That is \$10 back to my pocket, 2 more and I will return my investment. Not bad, not bad at all.

To do a quick summary – I don't know if you can become filthy rich using this system or not but looking at weekly leaderboard I can see people with over 414 paying members enrolled, and that is for one week. So what I will do is continue to investigate this opportunity and post updates on my regular site, so feel free to visit and read them if you liked this article or just want to learn more from a person who is doing it and honestly sharing. No hype, no fuss, just an honest opinion.
