

RAIN FOREST HOLDINGS - BUILDING OUR SOUL AROUND YOU

In an era wherein real estate prices have gone over the roof and you have much lesser time for your real estate investments and other realty purchases, Rainforest Holdings fervently believes in what we call as the CCC "Customer Centric Consulting" Paradigm. All our constructions and projects have been thought of and conceived keeping the customer in mind and though it might sound cliched, it is true that we are obsessed with what the customers have to say, feel or think after the completion of the project. We aim to be the one-stop source for anything the customer might have in mind when it comes to realty. We also strive for that one single positive testimonial that has the power to make or break our brand in the highly- competitive market.

The Tag line for rain Forest Holdings goes " Built for Life" - There isn't anything fancy here except for the fact that everything we do, from the Idea, preparation, conceptualizing the Idea, The actual work, the quality of the materials used, the processes Implemented including the ones we have for our back-office run on the High-quality track. This is an almost monomaniacal obsession with the company from the very beginning. We believe that Homes are where Humans live and hence everything nook and corner, every recess and every shelf has been thought of earlier. it is almost like placing you there first and then building the home over you.
