

SEO ARTICLE SUBMISSION

So you have a website. You worked on it for a long time and it looks real nice. Now you are ready to do business on the Internet! Only one thing is missing... Traffic!

A Website is next to worthless without traffic. Without any traffic for your website, nobody will ever see your message. You might as well just put the site on your home computer behind a firewall if you don't get any traffic to your website.

Ok, so how do you get traffic to your website? From the search engines, that's how. Google.com, MSN.com and yahoo.com. There are a few others as well, but this is the source of most of the traffic found on the Internet.

And how do you get traffic from the search engines? You have to get your webpages listed in the top results for phrases people would use to find your website. To do that, your best bet is to get as many inbound links from other websites as possible.

And one of the very best ways to get inbound links from other websites is by publishing articles just like this one. Simply write an article about your website topic and put your website link in the article. Then proof read your text and submit it to your favorite Article Submission Website.

There are many ways to submit your article and many websites to submit it too. In this article we will look at the websites you can submit your articles to. The goal is to get your article posted on quality websites with a high PageRank.

So here is how you should go after this... See the top ranked sites with a PageRank of seven? There is only two of them and they are very important. Then the PageRank six websites are next. And don't discount the PageRank five websites either.

Start at the top and work your way down. If you have a PageRank of zero, then go for everything in the list. If your website has a PageRank of three or four, skip the zero and one PageRank Article Submission Websites.

Be sure to work your website keywords into the article so the search engines have something to work with. For example, notice how I have the term "SEO Article Submission" through out the article. It is important to repeat your keyword phrase a few times and spread it around. In other words, put your keyword in the first paragraph, the last paragraph and through out the rest of the text. Don't over do it, Four to six times for a short article. Repeat your keywords more often for longer articles.

Here is a short list of SEO Article Submission Websites. For a much larger list and information on how to automate the process of submission, visit this website;
