## PAS IS DIFFERENT, VERY DIFFERENT (PART 1 OR 3)

It is not very often a program comes along that is truly revolutionary; Prosperity Automated System is that kind of program. The PAS compensation plan and the Team Leader concept completely blew me away.

The compensation plan is absolutely fantastic. You can make between \$1100 and \$3000 per sale. That is huge. In addition to the direct commission you will continue to earn a substantial residual income from that individual. PAS has 1-Up compensation plan. Meaning each individual you sponsor pays you up to \$3000 and you receive the first person they sponsor as well as the commission. And the cycle continues. Now imagine your income if you had 3 paylines, how about 10 paylines? There are many PAS members with dozens of paylines.

PAS is only program out there where can be completely Passive. Passive means you DO NO Marketing, NO Calling, NO Selling etc. PAS utilizes the Team Leader concept. A Team Leader is a PAS member who has been very successful with the program. And who better to represent PAS to your new prospects than successful PAS members. The Team Leaders do all the "grunt" work – this includes entire sales process. They built an infrastructure and teams in order to support the sales and marketing process around the clock around the world. No matter where prospect is located there is a Team Leader waiting to respond to your prospects inquires.

PAS distinguishes itself from every other program given the compensation plan and the fact that you as PAS member can be successful, make a lot of money while doing absolutely nothing.
