

IS THE REVERSE FUNNEL SYSTEM A SCAM? THE TRUTH

You've probably heard of it by now the reverse funnel system by Ty Coughlin "beach bum makes 250K in a month" and it may sound enticing. The ads seem to be all over the place, so one day I decided to take a look at the opportunity and liked the idea that "people fail systems work". So how much of the SYSTEM is a system? Not much.

First of all your asked to take a \$50 survey just to learn more about the business wether its for you, or not. Then after all that you learn of global resorts network, and cool \$1000 a sale sounds quite nice, and your led to believe your system does the work for you... So how much is the SYSTEM try \$3300.00, after you pay your 3 grand you think your all set not so.

A hefty monthly fee of \$300.00, which is also required right away to proceed to setting up your system. I ask what system? When all is said and done your going to pay \$3300.00 for them to tell you it might be a great idea to market the GRN global resorts network product. Oh and good luck trying to sell it because, unlike any other GRN based marketing team Ty Coughlin is going to charge all your leads \$50 just to learn more, unlike other effective GRN marketing teams.

Think of all those leads you lose over the \$50. Stick with the winners, not someone that's cost you big bucks to put a lead weight and your businesses potential. Check out the links below for a REAL SYSTEM. regards, David Nelson
