I think we all have had dreams about becoming Rich. And about the freedom we would have to spend more time with our family. And have enough cash on hand to buy the things we want. And not be in debt to anyone. All this cash would be coming in from our very own Home Based Business.

I can tell you that 95% of the ads we see are scams. They offer riches just by getting up out of bed.. And zero efforts on your part. You know the kind I'm talking about. Most of us have bought one or two of these scams before. So we silently keep it to ourselves.. But in secret we still search for another money making program, and we buy it hoping it will be that gold nugget, the pie in the sky. And we fail again.

I was so angry at one time of being ripped off by scam artist that I almost quit and gave up. Why? Because I was beginning to think that all those money making programs were scams. Then I remembered what my Dad told me when I was in my 20's. He said, I'm going to tell you something and I want you to listen to me and never forget it.. He said, as long as you punch a time clock you will never have enough money. And you will always live your life one step away from poverty..

I also remember something else I read a few years ago. I don't know who wrote it. It said, "How To Tell If You Are Living Paycheck to Paycheck" Answer: If you can't afford to take 12 people out to eat at Mc Donalds on any given day of the week. OH HOW TRUE!!!

These scams being sold by the thousands and are no more than warn out programs of the past, just renamed and given a new face lift. I just seen one of these on a infomercial on TV the other night, offering a warn out program.. The reason I know this is because I bought the very same program under another name back in 1996, yes it is 10 years old. Being sold under another name and with a new face lift.. The only ones who are making money off these scams are the scammers themselves.. They are laughing all the way to the bank.

I was determined to find that true income generating program. I just knew they were out there, but where?

I read about regular people like you and me making a full time income from the comfort of their homes. And all this was being done on the internet. They were making anywhere from \$50,000 to \$100,000 per year.

So I emailed a few of these companies that was stating: "Success from your own internet business". And low and behold they showed me their bank statements and checks they received as proof they were living the dream I always dreamed about.

Hey, don't take my word for it. Read the testimonials for yourself, you be the judge. Check out the checks they are receiving month after month.
