

VINYL BANNERS WITH ITS DIFFERENT TYPES, KINDS, AND APPLICATIONS

One way to announce or promote a certain new product or special events is perhaps through using of vinyl banners. Large or small size of printing these vinyl banners are can be able to print and in many types of weather it can hold up extremely well.

There are many businessmen who like mostly vinyl as there promotional tool, not only because it is the latest trend in advertising, maybe because vinyl is very durable, versatile, and easy to work with. Because it's durable, vinyl banners can be mounted, attached, or hung in several different ways, making it very versatile as well. The major advantages of vinyl to any other material is that is can be used conveniently both inside and outside for many different applications.

From several different types of vinyl, we can come up to many kinds of vinyl banner with each one lending itself to better applications. Below are several applications where vinyl banners are commonly used:

Trade Show Banners Hanging Banners
Exhibit Banners Office Promotional Signs
Large Format Vinyl Banners New Housing Development Signs
Sponsorship Banners Festival Banners
Welcome Signs Street Pole Banners
Point-of-Purchase Signs Vinyl Window Signs
Construction Site Signs Banner Stands
Street Banners Vinyl Car Graphics

In addition, listed below are the different types of vinyl that we can use to create vinyl banners, from small sizes to large format vinyl banners.

- Scrim Vinyl

Scrim vinyl is a type of vinyl known for its outdoor durability and strength.

- Matte Vinyl

Matte vinyl has a water and glare resistant coating that allows for vibrant, beautiful imaging.

- Gloss Vinyl

Gloss vinyl is designed for printing vibrant, multi-color images that require a gloss surface or require extra "image pop." Gloss vinyl can be used in a wide range of banner applications and climatic conditions.

- Blackout Vinyl

Blackout vinyl has a middle layer of black vinyl in between 2 other layers of vinyl.

- Adhesive Back Vinyl

Adhesive back vinyl is exactly as the name suggests a type of vinyl with an adhesive on the back that allows it to stick on any number of surfaces, from foam board to vehicles.

- Mesh Vinyl

Mesh vinyl has many of the same features as traditional vinyl, including the ability to handle harsh weather conditions.

Choosing from these different types, kinds, and even different applications of vinyl is not enough. You must also consider the printing company that will work with the creation of your vinyl banners. If you having trouble finding the right printing company, it is highly recommended that you surf online. From there you will be able to find many vinyl printing companies that have the equipment necessary to do your printing need.
