## WHAT TO LOOK FOR IN A HOME BASED BUSINESS

- 1) Choose an industry that you are interested in – don't just do it for the money. There are lots of business opportunities out there where you can work from home or make money online but make sure it captures your interests. You could be in it for the long haul.
- 2) Does the business that you are choosing offer any form of training to help you be a success from the get-go? Let's face it we don't know everything especially when we're just starting out. Check to make sure someone has gone before you and laid out a duplicatable process that you can model.
- 3) Can it be considered a "Ghost Operation"? In other words would the business or system allow you to make money without always having to be there? Many online business opportunities are set up this way, allowing the business to run on "skeleton crews" with as little as 10-15 hours per week.
