## HP PLANS TO CUT 500 JOBS AT ITS WEBOS DIVISION

Hewlett-Packard plans to lay off as many as 525 employees following its decision announced in August this year to shut its WebOS hardware business. Even though HP did not confirm the number of employees the company plans to lay off, they confirmed that the dreaded layoffs are underway. In the meantime, they confirmed they will stand by their commitment to their WebOS customers. Read the original article here: [HP Cutting 500 Jobs at web OS Division \(Updated\)](#)
