

MINNESOTA FIRM TO BRING 20 JOBS TO OHIO

The Ohio Department of Development has awarded a Minnesota technology company a \$118,000 tax credit Monday to move to Springfield. Minneapolis-based Phygen Coatings' \$2.87 million project will create 20 positions at a 28,000-square-foot building. The company develops and sells wear-resistant and protective coatings. Phygen must remain in Springfield for 14 years or lose the tax credit. In September, the US House of Representatives approved a \$3.6 million earmark for Phygen.
