

ECOMMERCE WEB SITE DEVELOPMENT SOFTWARE

Advanced E-Media, Inc. is an established software technology platform company that serves small and mid-size businesses. Advanced E-Media's primary technology service, the WebJaguar E-Business Suite™, is a comprehensive Web-based service that is completely scalable.

WebJaguar is robust technology, offered as a Software-as-a-Service (SaaS) business model, and developed by Advanced E-Media to build dynamic, database-driven Web sites. WebJaguar is offered in three editions, including, 1) Corporate/Membership Edition with strong content management tools to enable both Advanced E-Media and its customers to quickly and easily manage and change Web sites, 2) Retailer Edition with comprehensive E-commerce capabilities for retailers to increase sales and profits on a local, national and global basis, and 3) Wholesaler Edition with a complete E-Business suite of online capabilities for manufacturers, wholesalers, distributors and suppliers to increase sales, save on time and costs and better manage their business throughout the supply chain. WebJaguar also has several add-on modules that can be provided at an additional set-up and monthly recurring fee for any of the three editions.

The WebJaguar service has a strong competitive advantage in meeting the needs of, a) manufacturers, b) wholesalers, c) distributors, d) suppliers, e) retailers and f) small to mid-sized corporations. The company also focuses on business alliances with companies that act as resellers with many prospects for WebJaguar and can help the alliance companies better service their customers, including a) hosting companies, b) IT services companies and c) Web design/development companies that do not have the E-Business, E-commerce and content management tools of WebJaguar. The company's success achieved in a relatively short amount of time is attributed to its industry knowledge, passion for creating Web site applications that help businesses grow profitably, and a focus on customer service. Contact us at 1(800)718-5051 for a consultation. Here are a few of our fine clients using our turnkey ECommerce Web Design Site Hosting :
