## HOW TO EARN MORE MONEY?- THE BEST GUIDE FOR YOU

### **Stop thinking yourself to be irreplaceable**

Discard away this mode of thinking immediately. You might think that this is a crazy thing to do, but its not. By being irreplaceable if you think that no one can substitute you, then you should also think in this term that you are also closing your opportunities of climbing the success ladder by being irreplaceable. You are limiting your arena of work and providing yourself with no chance of betterment.

### **Give yourself chance to get attached with income generating work**

No matter how much you love your work, you should always have an attitude towards reaping more benefits. Wherever you work and whatever you do, try to work in such a way so that you may reach the section from where the income is being generated. If you get a chance to reach that segment then you can focus easily on how to generate more wealth. In a way you can say, maintaining an attitude of that of an entrepreneur can prove very beneficial for your earning more money.

### **Creating income streams that can thrive without your active involvement**

The above phrase can be described in one word as passive involvement. Apart from your work you can engage yourself partly in a field which can fetch you a steady source of income even after retirement from your present job. These income generating fields do not demand too much of your time and you can develop on it slowly.

Devote some time in carrying out some market research and try to understand the fields which can ensure such flow of money for you. Initially it may not appear as a profit enterprise, but once you are set with it you can see how soon you reap its benefits.

### **Incomes which are leveraged**

Leveraged incomes are those sources which create income for you by leveraging other people's work. For example if you happen to be an author of a book, you may want to make it available to readers by making it an e-book. The affiliates will sell your book. As a result you receive money.

By doing these you shall not only generate more money but you will also get the freedom to live your life the way you want. You don't have to be a slave to your present job with utmost loyalty and dedication. Instead you discover other vistas and give yourself the chance of improvement.
