

HEMLOCK SEMICONDUCTOR DECLARES LAYOFFS

Hemlock Semiconductor is laying off 100 workers in Michigan and three-fourths of its employees in Clarksville. The \$1.2 billion plant near the Kentucky border was scheduled to begin production of polycrystalline silicon. The plant will be utilized and the company looks forward to production. The company is laying off 300 of its 400 employees in Clarksville, plus the 100 workers at its Michigan plant.
