
LEXMARK TO LAY OFF 360

Printing services firm Lexmark International will shutter a plant and lay off 360 workers. Two hundred and seventy will lose their jobs at an inkjet cartridge factory in Juarez, Mexico, by Q1 2010. The firm's revenue fell 20%, to \$944.1 million, in the last year. Lexington, Kentucky's Lexmark develops and manufactures printing & imaging solutions, including laser & inkjet printers, printing supplies, and services for business and individual consumers.
