## ARIZONA CONSTRUCTION FIRM RECRUITING TEENS

Granite Construction will host a college day and career fair for Tucson, Arizona-area high school students a week from Friday. Representatives from the three state universities, Pima Community College and the Arizona Chapter of Associated General Contractors will inform students at the May 8th event about construction-engineering programs. Incorporated in 1922 and publicly traded since 1990, Granite Construction Company is best known for transportation infrastructure projects including roads, highways, tunnels, bridges mass transit facilities and airports. Granite also produces sand, gravel, ready-mix and asphalt concrete and other construction materials.
