

## HAVING TROUBLE WITH YOUR CAREER? WHY NOT BECOME A PROFESSIONAL CUDDLER?

**Summary:** *Do you have no idea where your career is headed? Would you like to work in an interesting job out of college? If so, the professional cuddling industry has exploded.*

Have you ever wondered what it would be like to lay in bed for the rest of your life? Well, you can give it a shot now by changing your career and becoming a professional cuddler. Yes, you read that last sentence correctly; a professional cuddler. This is a real job today that comes with a paycheck and everything. Do not knock it until you try it either.

Professional cuddling has become popular because there are some people in the world today who simply do not have time to date or find a significant other to share their lives with. This is where the professional cuddler comes into play. There are people who want to help others have an intimate relationship, to an extent, and they make money doing it.

Professional cuddlers will do exactly what the phrase says, cuddle with someone, for an hour, two hours, or even overnight. Many will make the client sign a waiver prior to the cuddle session that they understand this is not a sexual encounter and the touching will only be professional in nature. All of this is done to protect both the cuddler and the client from any sexual issues that might arise (pun intended).

One of the most popular and commercially driven companies is that of The Snuggle Buddies. The Snuggle Buddies offer female and male cuddle partners for their clients and want clients to know that they are not allowed to discriminate against their snuggle buddy. All races, religions and ethnicities are accepted when people apply to be a snuggle buddy.

The Snuggle Buddies go a little bit further than some of the other businesses. They offer more than just snuggling or cuddling. They also offer conversation and platonic outside dates to the movies, dinner, concerts and other events. They basically welcome any platonic activity one would enjoy with a friend as an acceptable session. You could also book a phone session with a snuggle buddy for one hour if all you want to do is talk.

The Snuggle Buddies accept cash, credit card or PayPal for their services, which are not that cheap. One hour of cuddling costs \$80. But, there are people out there who are willing to pay for such a service, because they spend too much time at school or at work to find someone to share their life with.

So, if you are having trouble figuring out what you will do upon graduation, or need a change in your current career, consider becoming a Snuggle Buddy. It seems very lucrative for the right people.
